Dr. (Mrs.) Rajni Lakhani obtained her M.Sc and Ph.D. degree in Chemistry from Punjab Agricultural University, Ludhiana (Punjab) in 1985 and July 1991. She joined Organic Building Materials group at CSIR-Central Building Research Institute (CBRI), Roorkee (Uttarakhand) as Fellow Scientist in August 1991. She has research experience of 22 years in the area of polymeric building materials, building envelopes including protective and decorative coatings, wood substitutes, Repair materials etc. During this period she has worked on a number of R&D projects related to building materials. She has also worked on projects funded by Government agencies viz, MoE&F, DST, BMTPC, New Delhi and have earned an ECF of more than one crore in her service life till now. She has published more than 50 research papers in Journals of National & International repute and Conferences. Her Notable contributions are the transfer of know-how of (i) IPN coating for concrete and steel structures,(ii) EPS door shutters (iii) Cement vermiculite tiles etc. She is also the faculty member of Academy of Scientific & Innovative Research (AcSIR), teaching and mentoring M.tech. students (Civil Engineering) in CBRI, Roorkee. Presently she is in the position of Principal Scientist as well as Group Leader of Organic Building Materials Group in CBRI, Roorkee.

Mr. Rajesh Kumar was born in 1992 in Hathras District, Uttar Pradesh. He received his Bachelor of Technology degree in Civil Engineering from Madan Mohan Malaviya Engineering College, Gorakhpur in 2012. In 2014 he received his Master's Degree in Building Engineering and Disaster Mitigation from CSIR-Central Building Research Institute, Roorkee. At present he is a Trainee Scientist and perusing Ph.D in Building Engineering and Disaster Mitigation from Academy of Scientific and Innovative Research, New Delhi (India).

Ms. Priyanka Tomar was born in 1989 in Muzaffarnagar District, Uttar Pradesh. She received his Master of Science degree in Chemistry from CCS University Meerut in 2011. At present she is a research intern in Organic Building Materials Division- Central Building Research Institute, Roorkee (U.K.).
