

P. Madhusudhanan

P. Madhusudhanan is a Sr. Engineer at Sharda Motor, R&D, Chennai. He is a multi role performer in the path of excellence in flow sciences. His job profile as flow lab in charge come CFD analyst paved the ways to understanding the virtual & real condition flow behavior and also his pursuing master degree in engineering is assisting him to broaden his view point from theory to application.

The current researches over know-how of flow behavior in emission & sound control devices has led to the development of 1-d tools which is evaluated with virtual & real condition analysis.
